Would the master care for some fresh air?

Traditional

You can have breakfast in bed in any old master bedroom. But how about breakfast on the private patio just off the master bedroom? That's a rare delicacy, indeed. It lets you have a breeze with your bagel, it blends the aroma of your coffee with the scent of dew and it gives a whole new definition to "sunny side up."

- 1 The master bedroom's walk-in closet is so big, you could even have breakfast in there ... although we're not sure why you'd want to.
- 2 A bar in the kitchen creates a little more workspace and room for a couple of bar stools.
- 3 The lower-level residence also gets a front porch that stretches all the way across the front of the home.
- 4 Give your car a nice home of its own with a detached garage.
