

The Lincoln

The Backyard Row Homes at Stapleton

Plan 3765

1,603 finished square feet
 2 bedrooms with main floor master
 534 unfinished square feet in basement
 504 crawl space area

2.5 bath
 2 car attached garage
 private side yard

You'll just have to get your exercise some other way.

Maybe you like the workout that goes with having an upstairs master bedroom. Down to start your coffee. Up to take a shower. Down to eat breakfast. Up to finish getting dressed. Down to find a missing sock in the laundry room. Up. Down. Up. Down. Up. Down. Or maybe you're ready for the main-floor master-bedroom in the Lincoln combined with a daily walk around the park.

Upper Level Option A

Upper Level Option B

The Lincoln

The Backyard Row Homes at Stapleton

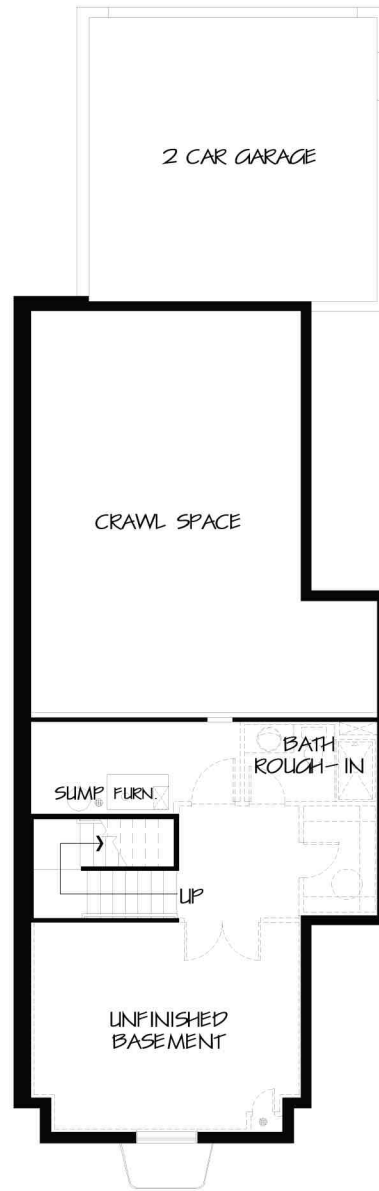

1. Because it's placed at the end of the row, the Lincoln has a bigger porch than the other Row Homes.
2. With this optional door, the patio becomes an outdoor master sitting room.
3. The second floor includes a loft and a spacious guest suite with its own bath and walk-in closet, or ...
4. ... an optional layout for the second level gives the Lincoln a library and a second master bedroom with his-and-her walk-in closets. Maybe you'll be climbing those stairs after all.
