

The Windchime Cottage

The Cottage Homes at High Plains Village

No kids in the next room. Hmmm.

Main-floor master bedrooms aren't just for people whose children have flown the coop. They're great for family homes, too. Think of it. Yours is the only bedroom on the main level. An entire floor all to yourself. Bedtime violation monitoring is simple – just listen for little footsteps above you. And if your children have flown the coop, think of no grandkids in the next room.

The Windchime Cottage, Plan 4260
2,079 finished square feet
3-4 bedrooms
2.5 baths
2 car garage

MCSTAIN®
NEIGHBORHOODS

1 475 square foot unfinished attic space – So much room, you could put two first-time novelists up here.

2 1,410 square foot basement – Space for a bedroom, bathroom and media room with enough left over for out-of-season clothes and unused exercise equipment.

3 Would you care for a private study with French doors, or a more open feel?

4 Lots of openness on the first level – Vaulted ceilings in the dining room and master bedroom and a 2-story ceiling for the living room.

5 This option turns the upstairs loft into a fourth bedroom. And a nice one, too, with its own walk-in closet.
